

**The First Announcement of
12TH INTERNATIONAL SEMINAR
“NEW TRENDS IN RESEARCH OF ENERGETIC MATERIALS”
which will be held at the University of Pardubice
Pardubice, the Czech Republic,**

www.ntrem.com

April 01 - 03, 2009

and will cover

From Synthesis to Performance

The twelfth consecutive Seminar on new trends in research of energetic materials is intended to be a world meeting of young people and university teachers working in the fields of teaching, research, development, processing, analyzing and application of all kinds of energetic materials. This Seminar also includes explosions in gaseous, dispersed and condensed systems. It will not only be aimed at the exchange of professional information but also to create a pleasant meeting where young specialists from different countries will have the opportunity to meet and gain personal contacts. The papers presented at this meeting will be quoted in the **Chemical Abstracts**.

Official Language: The official working language will be English.

Registration Fees:

Students and young researchers: free of charge

Others: free of charge, voluntary donation of €100.- to help co-sponsor the seminar would be greatly appreciated.

Interested contributors are asked to send their registrations **through the Web site** of the Seminar by **December 30th, 2008** at the latest, including the title and short abstract of their contribution. Please indicate your preference for oral or poster presentation.
