## New Trends

in Research of Energetic Materials

Venue – lecture hall A1, University of Pardubice

# April 26 – 28<sup>th</sup>, 2017

First Announcement of 20<sup>th</sup> International Seminar

topic

20 years - where we were and where we are going

University of Pardubice Faculty of Chemical Technology Institute of Energetic Materials Czech Republic

The twentieth consecutive seminar on new trends in research of energetic materials (NTREM) is intended to be a world meeting where junior scientists and students meet with each other and also with well-established experts working in the fields of teaching, research, development, processing, analyzing and application of all kinds of energetic materials. The goal the organizing committee is to create a pleasant atmosphere where young specialists from various countries will have an opportunity to exchange professional information as well as gain personal contacts.

#### **Registration Fees**

The entry is free of charge to enable attendance of students and junior researchers.

A voluntary donation of about €100 to help co-sponsor the seminar will be greatly appreciated from well established participants.

### **Official Language**

The official language is English.

#### Dates

Abstract – 31<sup>st</sup>, December 2016 Full text – 20<sup>th</sup>, March, 2017
