

# New Trends in Research of Energetic Materials

Venue – lecture hall A1, University of Pardubice

**April 7<sup>th</sup> – 9<sup>th</sup>, 2027**

## First Announcement of 29<sup>th</sup> International Seminar

The twenty-ninth consecutive seminar on new trends in research of energetic materials (NTREM) is intended to be a world meeting where junior scientists and students meet with each other and also with well-established experts working in the fields of teaching, research, development, processing, analyzing and application of all kinds of energetic materials. The goal the organizing committee is to create a pleasant atmosphere where young specialists from various countries will have an opportunity to exchange professional information as well as gain personal contacts.

### Official Language

The official language is English.

### Dates

Abstract – November 29<sup>th</sup>, 2026

Full text – January 31<sup>st</sup>, 2027

## Tourist information

[www.czechtourism.com/t/pardubice/](http://www.czechtourism.com/t/pardubice/)

## Venue

The seminar will traditionally take place in the main lecture hall of the University of Pardubice, which is conveniently within walking distance of most hotels in the city center.

After a day of lectures, participants may relax by exploring the charming historic center of Pardubice, visiting the local castle, or taking a pleasant trip along the inline skating trail leading to Kunětická hora, offering both a historic landmark and beautiful natural scenery. The surrounding region also offers a variety of attractive destinations, including scenic countryside and cultural landmarks, which are easily accessible by car or train.
